EDUCATION

Florida International University

Bachelor of Arts in Computer Science — 3.49 GPA

Miami, FL

June 2023 - Present

EXPERIENCE

Best Buy

Inventory Control Specialist

July 2023 – Present

Miami Beach, FL

- Advised customers on tech products while leveraging strong technical knowledge.
- Utilized data-driven insights and internal systems to monitor inventory and support asset protection operations
- Used real-world operational data to identify risks and prevent \$56,000 in losses, resulting in a 38% theft-prevention rate.

PROJECTS

Agent Powered Patient Monitor | *HTML, CSS, JavaScript, Flask, SQLite*

September 2025 – Present

- * Built a full-stack patient monitoring platform using Flask, JavaScript, and SQLite, enabling real-time vitals tracking and automated system updates.
- * Integrated Google's AI Agent to allow nurses and doctors to ask questions, receive patient updates, and get automated alerts.
- * Allows healthcare workers to be more time efficient and track multiple patients all in one system.
- * Built a structured database using SQLite to store patient records and support fast, reliable access for both users and the AI agent.

GradTrack | *HTML, CSS, JavaScript*

November 2025 – Present

- * Built real-time rendering features with Three.js and custom GLSL shaders, including multi-pass effects and optimized GPU uniform updates.
- * Engineered a full front-end architecture with Vite, spatial audio, and mobile-responsive controls, implementing robust error handling, resource loading pipelines, and seamless UI/3D environment interactions.
- * Integrated AI systems to generate personalized academic plans, provide real-time guidance, and deliver accessible audio-based course feedback.

EXTRACURRICULAR

FIU SEDS | *Active Member*

September 2025 – Present

- * Currently contributing to FIU SEDS' rocket avionics team by programming the flight-computer motherboard and assisting in the ongoing PCB design for the rocket's onboard electronics.

INIT | *Active Member*

September 2025 – Present

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, HTML/CSS, React, React Native

Frameworks: SQLite

Developer Tools: Git, Google Cloud Platform, PyCharm, IntelliJ, VsCode

Libraries: Currently learning
